

Lube Oil Pumps

SORCERER 8820 General Purpose	DRUID 8828 Gear Oil	MERLIN 8826 A.T.F
981-000	981-001	981-003

20 LITRE DRUM PUMPS:

The Sorcerer 8820, the Druid 8828 and the Merlin 8826 provide the user with reliable, hard working and fully servicable drum pumps for the topping up of engines, diffs and gear boxes.

Suitable for the transfer of engine oil, gear oil and automatic transmission fluid, the pumps' modern design, high quality components and smooth pump action make them the ideal pumps for the transferring of oil in car servicing workshops.

The pumps' features include:

- Non drip nozzles for gear oil and ATF transfer
- U.V stabilised long hose life
- Drainback nozzle holster to ensure that excess oil end up back in the drum and not on your workshop floor
- Easy to operate pump action
- Dispenses product on the down stroke.

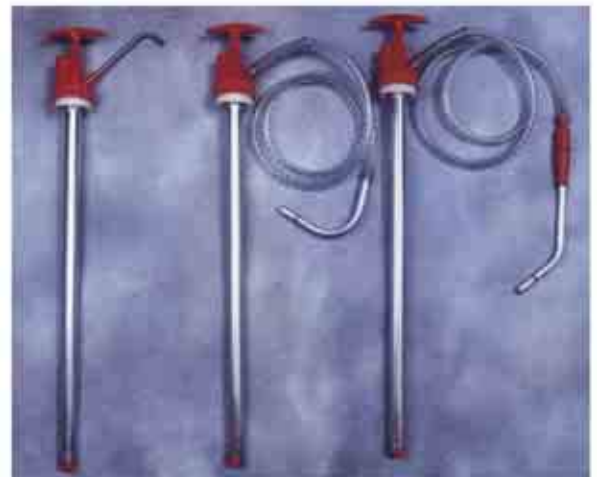

60 LITRE DRUM PUMPS:

Utilising the same pump head and accessories as the 20 litre pumps, the Warlock 8870, the Conjuror 8878 and the Mandrake 8876 deliver approximately 8ml per stroke.

Fully servicable and covered by a 12 month warranty, the "88" series drum pumps offer a service life similar to alternative equipment at very competitive prices.

The pumps' features include::

- Filter assembly standard on ATF model
- Heavy duty pump head and handle assembly
- Precision ground piston shaft
- Standard model has no external aluminium parts and as such is suitable for use in underground coal mines
- Bung N seals and polyacetal valve

GASCO/Fillrite Range

VANE PUMP KIT:

- Suitable for diesel fuel transfer
- 12 Volt DC, 16 Amp & a flow rate up to 40L/min
- Complete with battery cable, 4 metre rubber hose, telescopic suction tube with filter, 25mm aluminium manual nozzle with swivel and brass fittings.
- Maximum head 12 metres.

Part No.
981-015

GASCO FLOWMETER:

- 3 Digit re-settable batch register & 6-digit cumulative total
- Adjustable calibration for use with thin liquids
- Suitable for gravity feed or pumped systems & a flow rate of 20-80 L/min.

Part No.
981-016

FILLRITE MECHANICAL FLOWMETER:

25mm BSPF
19-76 LPM
Cast Iron Body
3 Digit resettable batch register.
Built in strainer.

Part No.
981-017

FILLRITE PUMP KIT:

-??-?? C/w 3.6metre hose, manual nozzle, adjustable suction tube, 4.5 metre battery cable, strainer, bung adaptor. -57 LPM
-??-?? No flowmeter but with auto nozzle - 57 LPM
-??-?? C/w 3.6metre hose, manual nozzle, adjustable suction tube, 4.5 metre battery cable - 76 LPM
-Available in 12v, 24v & 240v with optional meter & auto nozzles. Fillrite Red models approved for petrol usage. Aviation units also available.

Part No.
981-012
981-013
981-014
981-018

Rotary Pumps

DIESEL/OIL DRUM PUMP:

Recently upgraded, this rotary drum pump now includes:

- Zinc alloy impellers make the pump suitable for oil, diesel fuel, kerosene and petrol transfer.
- Delivers 20LPM or 0.33 litre per rotation.
- Cast alloy construction ensures long working life and smooth operation.

Part No.
981-010

HIGH VOLUME DRUM PUMP:

High volume standard rotary action refuelling pump.
Pump only with alloy bung adaptor.
1 litre per rotation or approx 100LPM.

Part No.
981-011
